Help The Children
P.O. Box 911607
Los Angeles, Ca 90091

Established in 1998, Help the Children is a human services organization dedicated to serving the economically disadvantaged and underserved through the systematic distribution of food, clothing, disaster relief, and other resources. We empower over 600 local agencies to include homeless shelters, senior citizen shelters, rehabilitation centers and other organizations to address the needs of low-income children and youth, senior adults, and people affected by disabilities and homelessness.

Here in Los Angeles County, Help the Children is currently improving the quality of life of more than 130,000 needy families each month through our feeding program, which distributes over 2 million pounds of food, mainly produce, each month, from our 40,000 square foot warehouse located in Los Angeles County.

Proceeds from the Help the Children Texas Hold 'Em Tournament will help to benefit thousands of needy children and their families here in Los Angeles County during the summer months, which is a difficult time for people who are challenged with providing consistent and well- balanced meals for their families.
